## Policy for the future:

Toward the building local circular ecological spheres, the Daiei Kankyo Group is working on integrated solutions to environmental and social issues such as the conservation of biodiversity, the creation of a resource-recycling society, and the formation of a decarbonized society.

## < Specific Initiatives >

### Daiei Kankyo Miyazaki Mimata Forest

Aiming for sustainable forest management, we are working to conserve rare plants, prevent local disasters, and produce forest products. Certified as a “Nature Symbiosis Site” in 2023

### Natural Forest Restoration Activities in Odai Town, Mie Prefecture

In the area where landslides were caused by typhoon disasters, we have been promoting reforestation activities from seedling to planting with employee participation since 2020.

### Production and sale of compost

Food waste from supermarkets and other sources is fermented and aged to produce compost with minimal environmental impact. Registered as “Organic JAS Materials” in 2016

### Message for the Future

Toward the realization of a sustainable society, we continue to provide environmental education for local children.
