

## Policy for the future:

The JAL Group has established five priority areas in order to realize our goal of “Passing on the precious Earth to the next generation” one of which is the “conservation of biodiversity”. The JAL Group aims to build a society in which nature and people coexist in harmony through its business activities. Based on the premise of reducing our impact on nature, we will create human flows through the preservation and experience of nature, and commercial and logistics flows through foods and merchandise that are products of rich ecosystems. In this way, we will create relationships and connections through mobility, and through the realization of “Nature Positive”, we will create a future in which everyone can feel affluence and hope, thereby enhancing our corporate value.

### < Biodiversity Actions >

#### GBF Target 2

#### (Coral restoration project by enhancing sexual reproduction)

Japan Transocean Air (JTA) is supporting efforts to restore coral reefs on Ishigaki and Kume Islands using a new method called the sexual reproduction act.

→Result: 1700 seedlings (FY22)

### < Metrics & Targets >

The JAL Group has set targets to be achieved by FY25 in order to realize the conservation of biodiversity.

Subtopic		Metrics	FY25 Targets
Collaboration with external stakeholders to help expand the area of protected areas such as national parks and OECMs by 2030	Preservation and expansion of tourism resources	[Okinawa] Number of sexually reproduced corals grown	1,000 seedlings by 2026
Use of certified commercial products		Percentage of in-flight items using certified paper	100%
Prevention of illegal wildlife trade		Number of illegal wildlife transports	0
Consideration for biodiversity in the foods merchandise we handle		Number of violations of internal guidelines for ESG risk food ingredients and commercial products	0
Reducing the impact on the ecosystems surrounding the airport		[Tokyo] Number of incidents of improper management of water containing hazardous substances	0
