

## Policy for the future:

With the automotive and aerospace businesses as the pillars of SUBARU's operations, our fields of business are the earth, the sky and nature. We promote biodiversity preservation through our business activities, aiming to achieve coexistence with nature. We also ensure ongoing, biodiversity-friendly business activities through the SUBARU Guidelines on Biodiversity, while also committing ourselves to the SUBARU Forest Project for biodiversity conservation and organizing various events in and outside our business locations aimed at raising people's awareness of biodiversity.

SUBARU will continue to drive biodiversity-related initiatives through the activities of the Biodiversity Working Group established in FY2021.

### < SUBARU Initiatives >

- SUBARU Forest Project
  - Purchased J-Credit as a measure against climate change.
  - Use of thinned wood
  - Donations to fund environmental conservation activities

### < Future issues >

Setting the long-term vision by 2030/2050 in consideration of "The post Aichi Target".

### < Message for society >

With the automotive and aerospace businesses as the pillars of our operations, Subaru declares in Subaru Environmental Policies that "Subaru's fields of business are the earth, the sky and nature".

We promote the biodiversity preservation through our business activities and contribute to the environmental protection of our planet while aiming to coexist with "the earth, the sky and nature".
