

Policy for the future:

We make efforts to build sustainable society and establish trust relationships with all stakeholders through our business activities based on the corporate philosophy and code of conduct, being in harmony with society and the environment as a company to pursue the potentiality of “Spice and Herb, the Earth’s Blessing.”

< Commitment to Sustainable Procurement >

S&B Foods will achieve the following milestones for sustainable procurement.

Spices : Regarding our main spices*, S&B Foods aims for sustainable procurement considering safety, human rights, environment, and compliance by 2030. We also continue to promote fair trade, certified organic spices procurement, and contract farming.

Palm oil : S&B Foods Group will completely replace palm oil used for all products with RSPO certified sustainable palm oil by 2023.

Paper : S&B Foods Group will completely replace paper used for our curry sauce mix, retort pouch, and tubed spice with FSC certified paper by 2023.

* Main spices : black pepper, chili pepper, mustard, parsley, laurel, oregano, and wasabi

Organic JAS and fair trade certified products

RSPO certified sustainable palm oil products

S&B Foods Group will continue to work on various business activities that can help to solve the social challenges with the concept of ESG and SDGs.
