

Policy for the future:

Toyota Tsusho Group Biodiversity Guidelines

- **Basic approach**

We recognize the importance of biodiversity, and will seek to conserve biodiversity from both a global and long-term perspective.

- **Contributing through the creation of new businesses**

When creating new businesses, we will aim to ensure that biodiversity can be maintained alongside our business activities by implementing risk assessment and clarifying traceability.

- **Cooperating with society**

We will seek to create collaborative relationships with governments, international organizations, NPOs, suppliers, customers and a wide range of other groups that work to ensure biodiversity.

- **Information disclosure**

We will disclose our voluntary biodiversity initiatives along-side our corporate activities, and share the results of these initiatives and the monitoring results with society; in this way, we intend to contribute to the development of sustainable societies.

Cleanup Campaign at Fujimae Tidal Flat, Registered as a Ramsar Convention Site

< Case study >

We have been participating in cleanup campaigns to support environmental conservation of the Fujimae Tidal Flat extending across the tip of Fujimae, Minato district, Nagoya City since 2013. Fujimae Tidal Flat serves as a vital stopover sites for many kinds of migratory birds. Located near the company's Nagoya Head Office, it's an urban oasis for wildlife. Local citizens groups, the government, and companies have joined together to protect this important environmental resource.

< Learning from this activity >

Through these activities, we can reaffirm the importance of coexisting with nature and learn the importance of consciousness of environmental conservation, such as continuous cleaning activities and reduction of household waste.

< Important matter >

Development of environmental conservation activities as a company.
